RFID Module Tracking
Setting Up Your John Deere Green Star Monitor

Presented By: Rich Lindsey
Cherokee Gin & Cotton Co.
Centre, Alabama
This information isn’t for me. Is it?

YES! This information is for all growers who are:

• Utilizing a Green Star Monitor

• Utilizing any type of monitor or software for guidance, harvesting, or nozzle control
Some Data Fields must match Gin Data

The Client, Farm, and Field data that you have set up in your John Deere monitor must match the corresponding data fields at the gin.
No GPS Signal...

Controller is not yet available...
John Deere’s Client = Gin’s Producer ID

Gin’s typically assign their own Producer IDs
No GPS Signal...

Controller is not yet available...
John Deere’s Farm = Gin’s Farm ID
Gin’s use the Farm Service Agency’s Farm Service Number (FSN) for the Farm ID
Field
John Deere’s Field = Gin’s Field ID
May be assigned by USDA or Gin
Finished Product
**Cherokee Gin (CHER16)**  
**Farm & Field Listing**
