HELP US DEVELOP THIS APPLIED, SCIENCE-BASED RESOURCE FOR THE SOYBEAN INDUSTRY...

The PLANT MANAGEMENT NETWORK (PMN), a not-for-profit publisher of agricultural resources, is developing **Focus on Soybean**, a webcast training resource that helps producers and consultants grow healthier, higher-yielding crops. **Focus on Soybean** includes...

- Monthly educational webcasts on crop protection and production, open access for 30 days upon publication
- Soybean news from the Plant Management Network's journals
- Ongoing access to our Partner Extension and Cross-Journal search engines
- Soybean rust symposium proceedings
 - One-click access to PMN's searchable resources
 - Featured soybean resources from PMN's partners

"Focus on Soybean is an outstanding resource that delivers innovative and unbiased research based information from soybean experts across the country."

— Shawn P. Conley
Soybean Extension Specialist
University of Wisconsin-Madison

HOW CAN YOU HELP?...

Pledge your financial support as a **Focus on Soybean** sponsor. Learn more at www.plantmanagementnetwork.org/fop, where you can view the resource, see webcasts, and download the sponsorship form.

WHAT FOCUS ON SOYBEAN OFFERS THE INDUSTRY...

Webcasts:

PMN is one of the first publishers to produce audio-visual webcasts for the agricultural industry. We have more than three years experience offering...

- Easy navigation
- On-demand access
- Expert speakers
- Science-backed information
- Personal contact with presenters

An Extension Information Search:

The targeted Partner Extension Search in **Focus on Soybean** allows users to find thousands of online fact sheets, booklets, and other resources from PMN's land-grant university partners. Users can search keywords by state or view our entire collection of information.

Other Agronomic Resources:

Focus on Soybean offers other resources that allow users to search for soybean-related information. They offer chemical and nonchemical pesticide efficacy trials, research articles, news, products & services, journal abstracts, and images.

"As an extension specialist, I have found that Focus on Soybean is a great resource that I can direct clientele to when they have questions about a specific soybean management topic."

— Carl A. Bradley
Assistant Professor of Plant Pathology and Extension Specialist
University of Illinois
