DRAFT Policy Statements

#1

NPDN Regional Center Web Site Access Policy

Beginning January 23, 2006, Regional Centers of the NPDN (National Plant Diagnostic Network) will make password protected areas of their web sites accessible to all diagnosticians within the network. Each regional center will provide an approved list of diagnosticians to the responsible party of granting access for each regional site.

This policy applies to NEPDN (Cornell University), SPDN (University of Florida), WPDN (University of California, Davis), NCPDN (Michigan State University), GPDN (Kansas State University). In addition, all diagnosticians will also be granted access to the password protected areas of the NPDN web site. It is further stated that it is the responsibility of each regional center to keep the access list up to date and update all regional centers of changes.

Further Clarification:

As of 1/23/06 the following are considered the “responsible party for granting access”:

GPDN	www.gpdn.org	Will Baldwin
NCPDN	www.ncpdn.org	Lee Duynslager
NEPDN	www.nepdn.org	Karen Scott
SPDN	spdn.ifas.ufl.edu	Carrie Harmon
WPDN	www.wpdn.org	Andrew Coggeshall
NPDN	www.npdn.org	Karen Scott

#2

NPDN Presentation Log Policy

The “Presentation Log” is located on the NPDN Web site under the “Pub Relations” committee page. The intent of this feature is to record all presentations, conference calls, booth exhibits, video conferences, training sessions, committee meetings, as well as operational meetings and discussions, that promotes the network or informs others about the NPDN. The information collected is intended to be used for reporting activities of the NPDN staff. This feature does NOT replace or duplicate the “First Detector” registration.

It is expected that the facilitator of a meeting, presenter of a session, or invited speaker representing the NPDN, will be the responsible person to enter the information into the log. When multiple people are presenting at the same function it will be coordinated by those individuals involved and one presenter will be appointed the “lead” and enter the information for the event. It is also expected that presentation information will be entered into the system within 15 days of the event.

National Plant Diagnostic Network : Registration
=====
A new user has registered.
As a portal administrator, you can provide access privileges
based on the user information given.
-----
First Name: jaidev
Last Name: manghat
Email: jaidevhere@gmail.com
Region: Great Plains Diagnostic Network
Institution: Kansas State University
-----
Remainder: Email the user once he/she is given access roles.
-----
National Plant Diagnostic Network Copyright.
```

Standard e-mail response

Jaidev,

Thank you for your recent request to access the NPDN web site. In order to process your request please provide the following information.

How did you hear about our web site?

How are you affiliated with the NPDN?

Who is your *state or regional* contact person for access approval?

Your access will be processed as soon as we receive your information. Thank you.

Karen Scott
